UPDATE ON THE BROAD RIPPLE PROJECT

INDIANAPOLIS – As work continues on the Broad Ripple Avenue Project from College to Keystone, the Indianapolis Department of Public Works has the following updates to pass along:

- Evanston Avenue, north of Broad Ripple Avenue to 65th Street and south of Broad Ripple Avenue to 61st Street, has reopened with normal signal operation. Evanston was closed in this location to enable workers to rebuild and realign the intersection with Broad Ripple Avenue, one of the main reasons for this project.
- Milling work is underway on Broad Ripple Avenue and resurfacing is scheduled to begin this week.
- The project, with the exception of the decorative crosswalks in the Village, is scheduled for completion by the end of the year.

PROJECT DETAILS:

The Broad Ripple Avenue Project from College to Keystone is federally funded and is expected to cost between \$2 million and \$3 million. The project consists of minor road widening, the installation of some turn lanes, curb and sidewalk work, traffic signal work, the realignment of Broad Ripple and Evanston Avenues, and resurfacing. Work started in the spring.
